## Structure

2. The participants are split up in groups of 8 persons (around 32 groups). Every group shall consists different countries and different ages.
3. **Level 1** Every group receives a yellow marked map with different stations. The groups go to this stations and make there the small task (3-4 minutes). When they finish the station they receive a small gift. They aren't allowed to make the same station direct after again.  
There are 23 stations, but the groups has also to walk from one station to the other → this should fit. Every station has an opening and a closing time.
4. **Level 2** After 35 minutes 16 stations exchange the yellow marked map with a red marked map, all the other stations close at this time. Maybe the groups has do make a station twice to receive the new map. The rest is the same like level 1.  
After 70 minutes 16 stations gives the group the information where the last station is (the outdoor swimmin pool), all the other stations close at this time. The groups has to go immediately to this station.
5. **Level 3** After the group is at the swimming pool, there aren't allowed to go back, a guard ensure this. The last task for the group is to build a swimming thing with the materials from the stations. This things are also marked with a number.
6. **Level 4** Let the thing from level 3 swim and a jury marks the 3 most beautiful ones.
